

# RAZOM FOR UKRAINE

**We are grateful for your support of Ukraine in this horrifying time!**

Today, **Razom Emergency Response** project is providing urgent help in the face of an extreme situation: the sovereign nation of Ukraine is forced to deal with a brutal invasion. **Razom** is responding by working with volunteers on the ground and partner organizations to provide critical humanitarian war relief and recovery depending on the most urgent needs as they evolve. Tactical medical equipment and hospital supplies are already in the hands of the people who are saving lives. More is on the way nearly every day. We are also evacuating children with disabilities and their families to safety, and advocating on behalf of Ukraine.
